Definitions

In your own words:

RAM:

ROM:

Definitions

Explain each and give examples:

Volatile:

Instructions:

CPU:

Explain ....

Discuss:

Boot up (boot strap)

BIOS

Firmware

3-2-1

Find examples:

3 types of storage

-

-

-

2 types of non volatile storage

-

-

1 type of volatile storage

-

1.2 Memory

Draw me a picture

Draw a simple illustration to represent these words:

Word	Illustration
Memory	
Processor	

Bigger mark questions:

A gamer has bought a new computer and it is running slow. It has a 1TB hard disk, a quad core CPU and 8MB of memory.

Explain why the computer may run slowly:

Types of RAM:

Type	Explanation
DRAM	
SRAM
