Supporting students with progression to Higher Education

Working towards the completion of a Level 3 Cambridge Technical, either as a standalone qualification or in combination with A Levels, students may want to progress on to Higher Education at university. There are a variety of routes open to students for doing this. We have provided a few options on the types of courses available, but there are many others to choose from.

We are committed to supporting students with the UCAS application process; visit our website to find out more.

Potential university routes following completion of a Level 3 Cambridge Technical
