OCR Advanced GCE H554 Unit G454
Practical Activity Assessment Form

OCR Oxford Cambridge and RSA

Centre Number		Centre Name	

Complete the boxes above and then in the table below list candidates in descending **overall mark** order. A separate form should be completed for each activity (coaching or officiating should be treated as an activity). Please sign and date the form and retain a copy for reference.

For activities where an event/skill/position needs to be specified and/or or a log book is required, please see pages 3-5 of this form for guidance on its completion.

Activity	

Candidate Number	Candidate Name	Gender	Event/ Skill/ Position	Mark /40	Event/ Skill/ Position	Mark /40	Event/ Skill/ Position	Mark /40	Performance table assessment/ 40	Log book /40	Overall mark/ 40

Candidate Number	Candidate Name	Gender	Event/ Skill/ Position	Mark /40	Event/ Skill/ Position	Mark /40	Event/ Skill/ Position	Mark /40	Performance table assessment/ 40	Log book /40	Overall mark/ 40
Name of Teacher responsible for internal standardisation:									**Date:**		

Signature			**Date**	

Guidance on completion

The Event/Skill/Position columns must be completed for those activities in which a candidate could be assessed in different events/skills/positions <u>within</u> that activity. The Log book column must be completed for those activities in which a candidate is required to complete a log book.

NB For an activity in which a candidate could be assessed in different events/skills/positions or activities in which a candidate is required to complete a log book, all columns relevant to the activity must be completed, by a zero (0) if necessary eg where an event/skill or log book has not been assessed.

In activities where candidates are assessed in more than one event/skill, for example in cricket, the different events/skills should each be assessed out of 40. If using the **interactive** version of the **Practical Activity Assessment Form**, an average mark is then automatically calculated to arrive at an overall mark out of 40.

Activity	Cricket

Candidate Number	Candidate Name	Gender	Event/ Skill/ Position	Mark /40	Event/ Skill/ Position	Mark /40	Event/ Skill/ Position	Mark /40	Performance table assessment/ 40	Log book /40	Overall mark/ 40
0047	A.Wicket	M	Bowling	38	Fielding	16	-	-	-		27

For team game activities please indicate position where appropriate in the Event/Skill/Position column.

Activity	Association Football

Candidate Number	Candidate Name	Gender	Event/ Skill/ Position	Mark /40	Event/ Skill/ Position	Mark /40	Event/ Skill/ Position	Mark /40	Performance table assessment/ 40	Log book /40	Overall mark/ 40
0047	D.Fender	M	Defender	20	-	-	-	-	-		20

Where candidates are required to complete a log book, for example in sailing and mountain walking, both the practical performance and the log book should be assessed out of 40. If using the **interactive** version of the **Practical Activity Assessment Form**, the practical performance mark is then automatically multiplied by 0.66 (⅔) and the log book mark by 0.34 (⅓) and the two results added together in order to arrive at an overall mark out of 40.

Activity	Sailing

Candidate Number	Candidate Name	Gender	Event/ Skill/ Position	Mark /40	Event/ Skill/ Position	Mark /40	Event/ Skill/ Position	Mark /40	Performance table assessment/ 40	Log book /40	Overall mark/ 40
0047	A.Boat	F	Sailing	24	-	-	-	-	-	18	22

In activities where candidates are assessed in more than one event/skill and are required to complete a log book, for example in equestrian (eventing) where candidates are assessed in dressage, show jumping and cross country, the different events/skills should each be assessed out of 40. If you are using the **interactive** version of the **Practical Activity Assessment Form**, an average mark is automatically calculated and then multiplied by 0.66 (⅔). The log book mark is automatically multiplied by 0.34 (⅓) and the two results added together in order to arrive at an overall mark out of 40.

Activity	Equestrian (Eventing)

Candidate Number	Candidate Name	Gender	Event/ Skill/ Position	Mark /40	Event/ Skill/ Position	Mark /40	Event/ Skill/ Position	Mark /40	Performance table assessment/ 40	Log book /40	Overall mark/ 40
0115	A.Jockey	M	Dressage	24	Show Jumping	19	Cross Country	28	-	15	21

In activities where candidates are assessed in an event/skill **and** measured against the performance assessment tables, for example swimming, each element should be assessed out of 40; a mark for technique and a mark for effective performance based on the OCR performance assessment tables. If using the **interactive** version of the **Practical Activity Assessment Form**, an average mark is then automatically calculated to arrive at an overall mark out of 40.

Activity	Swimming

Candidate Number	Candidate Name	Gender	Event/ Skill/ Position	Mark /40	Event/ Skill/ Position	Mark /40	Event/ Skill/ Position	Mark /40	Performance table assessment/ 40	Log book /40	Overall mark/ 40
0001	M.Edley	F	Backstroke	25	-	-	-	-	35		30

In activities where candidates are assessed in more than one event/skill and are measured against the performance assessment tables, for example triathlon where candidates are assessed in swimming, running and cycling, the different events/skills should each be assessed out of 40 along with a mark awarded for effective performance out of 40 based on the OCR performance assessment tables. If using the **interactive** version of the **Practical Activity Assessment Form**, an average mark is then automatically calculated to arrive at an overall mark out of 40.

Activity	Triathlon

Candidate Number	Candidate Name	Gender	Event/ Skill/ Position	Mark /40	Event/ Skill/ Position	Mark /40	Event/ Skill/ Position	Mark /40	Performance table assessment/ 40	Log book /40	Overall mark/ 40
0030	I.Ronman	M	Swimming	33	Running	29	Cycling	39	32		32

Where candidates are coaching or officiating, the Activity is coaching or officiating with the Event/Skill/Position column used to detail which activity the role was in, for example athletics coaching. The practical performance and the log book should be assessed out of 40. If you are using the **interactive** version of the **Practical Activity Assessment Form**, a mark is then automatically calculated by multiplying the practical performance mark by 0.66 (⅔) and the log book mark by 0.34 (⅓). The two results are added together in order to arrive at an overall mark out of 40.

Activity	Coaching

Candidate Number	Candidate Name	Gender	Event/ Skill/ Position	Mark/ 40	Event/ Skill/ Position	Mark/ 40	Event/ Skill/ Position	Mark/ 40	Log book/ 40	Overall mark/ 40
0010	A.Coach	F	Ath	21	-	-	-	-	17	20
