

NOTICE TO CENTRES

FAO: Head of Technology/Engineering

Date: 26th November 2014

Subject: Addendum to OCR Cambridge Nationals in Engineering Specifications

The Cambridge Nationals in Engineering specifications have recently been reviewed. As a result of this review a number of minor typographical amendments have been made to the content of the specifications, in order to give greater clarity. Revised versions reflecting these changes will be available online shortly at www.cambridgenationals.org.uk.

Cambridge National Certificate in Systems Control in Engineering (J843)

Unit R116: Process Control Systems

Some amendments have been made to the marking criteria grids to ensure they are consistent, and these must be applied when internally assessing candidate work from September 2014. These are summarised below:

- The title of the marking criteria grid for LO2 has been amended: *Be able to design, develop and simulate a control system solution*, as per the LO title.
- Within the marking criteria for LO3, the mark range for LO3 Mark Band 3 has been amended as follows:
MB3: 9-12 marks

Cambridge National Award/Certificate in Engineering Design (J831/J841)

The title of Unit R105 has been amended in two places to its correct title “**Design briefs, design specifications and user requirements**”:

- Section 3.1 *Overview of the assessment in the Cambridge National Award/Certificate in Engineering Design*
- Section 7.2.2 *Making final unit entries – Table – Unit titles*
