OCR Report to Centres: 2014 – 2015

OCR (Oxford Cambridge and RSA) is a leading UK awarding body, providing a wide range of qualifications to meet the needs of candidates of all ages and abilities. OCR qualifications include AS/A Levels, Diplomas, GCSEs, Cambridge Nationals, Cambridge Technicals, Functional Skills, Key Skills, Entry Level qualifications, NVQs and vocational qualifications in areas such as IT, business, languages, teaching/training, administration and secretarial skills.

It is also responsible for developing new specifications to meet national requirements and the needs of students and teachers. OCR is a not-for-profit organisation; any surplus made is invested back into the establishment to help towards the development of qualifications and support, which keep pace with the changing needs of today's society.

This report on the examination provides information on the performance of candidates which it is hoped will be useful to teachers in their preparation of candidates for future examinations. It is intended to be constructive and informative and to promote better understanding of the specification content, of the operation of the scheme of assessment and of the application of assessment criteria.

Reports should be read in conjunction with the published question papers and mark schemes for the examination.

OCR will not enter into any discussion or correspondence in connection with this report.

OCR REPORT TO CENTRES

Content	Page
Cambridge Technical IT Level 2 and 3 - 05340-05358	4

Cambridge Technical IT Level 4 - 05805

1. Overview:

This was the first full year of availability of the specification. Centres are advised to make full use of the number of verification visits rather than wait until the end of the programme to submit all units for a candidate. Centres accessing interim moderation of completed units have found the process to be beneficial in terms of obtaining feedback on candidate progress to date.

Centres new to the specification have found the free advisory visits to be useful. Full details of these visits are available on the website www.ocr.org.uk.

2. General Comments

Centres appear to be entering candidates who are at the correct level for the specification and undertaking units which are relevant to the candidates.

3. Comments on Individual Units

No issues have been identified during the moderation of any units.

4. Sector Update

The 2012 suite of qualifications will remain current for the Cambridge Technicals in IT at Level 4; there is no 2016 suite of qualifications at Level 4.
