Dear Charlotte

The English Federation of Disability Sport (EFDS) works to make active lives possible. As a national charity we look to a better future where everyone can enjoy the opportunities available.

EFDS has a vision that **disabled people are active for life**, and our purpose is **Making active lives possible**, by enabling organisations to support individual disabled people to be active and stay active for life. This is also true when it comes to training the next generation of coaches, instructors and sports development professionals. If they understand from the beginning how important inclusion is, disabled people can have a better and more active future.

This letter is to support the proposed qualifications in Sport and Physical Activity. You have consulted with me during the development and we have seen that you have taken my views on board in the design of the qualifications to use the correct language and an inclusive approach.

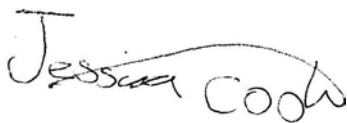

You have consulted with me during the development and we have reviewed the content of final qualifications listed below

OCR Level 2 Cambridge Technical Certificate in Sport and Physical Activity (603/0520/4)

OCR Level 2 Cambridge Technical Diploma in Sport and Physical Activity (603/0521/6)

We believe that these qualifications will allow a student to develop the skills and knowledge they will need to progress into employment within this sector. We also feel that a student completing these qualifications would develop specialist knowledge and skills at a level expected for an 18 year old starting work in this industry/sector. As such this would stand them in good stead when applying for relevant jobs.

Yours sincerely,

Jessica Cook
National Partnerships Advisor
EFDS
