

Oxford Cambridge and RSA

QUALIFICATION TITLE - OCR Level 2 Cambridge Technical Diploma in Business Administration

QUALIFICATION NUMBER – 603/2729/7

OVERVIEW

This qualification is for learners who are 16 years old or over, and want to apply their skills and knowledge in business administration.

It will equip you with the essential skills and knowledge required to progress onto a business administrator apprenticeship, or into an administration-related job role, such as an administrator, an admin apprentice, an events assistant or a receptionist. It will also enable you to acquire a range of transferable skills and knowledge which are highly regarded by employers.

You will learn by applying your skills, knowledge and understanding to tasks or activities that happen in the business administration sector. We have worked with employers who have helped us include the transferable skills, knowledge and understanding that they are looking for in prospective applicants.

The qualification is designed to be taken as part of a study programme alongside other vocational qualifications, GCSE resits or A-Levels. There are no formal entry requirements for this qualification, but, ideally, you will have or be working towards GCSEs at grade 4/grade C or above including maths and English.

What does this qualification cover?

This qualification contains seven mandatory units:

- 1 Principles of working in service sector organisations
- 2 Understand customer expectations and issues
- 3 Social media in the workplace
- 4 Provide administrative support
- 5 Follow administrative practices and create procedures
- 6 Communicate in a business environment
- 7 Support the organisation of an event

Units 1 and 2 are knowledge and understanding based examined units. The learning from these can be applied in Units 3-7, which are skills-based units. Unit 7, *Support the organisation of an event* will draw on the skills, knowledge and understanding developed through the other units. This will provide opportunities for synoptic assessment, enhancing the applied nature of the qualification.

Employer Engagement

You will have opportunities to find out from employers how the skills and knowledge that you'll acquire are used in work. Your centre will decide how this will happen. However, you should undertake structured work-experience or work-placements that develop skills and knowledge relevant to this qualification and you may also benefit from an employer visiting your centre as a guest speaker to talk to you about how the skills you are gaining are used in employment.

Is this qualification right for me?

This qualification is part of a suite of Cambridge Technicals in Business at Levels 2 and 3. It takes 360 guided learning hours to achieve – this means that it can be taken in one year, forming the majority of your study programme. Normally you would take this qualification because you are aged 16 years or over, in full-time education, but aren't quite ready to study a Level 3 qualification in this sector at this stage.

The qualification is not just about business administration; it will provide you with the skills, knowledge and understanding to progress onto a Level 3 Tech Level qualification in the business sector, or into employment, either directly or through a Business Administrator Apprenticeship.

Support

The following employers support this qualification:

IBM UK LTD, Chessington World of Adventures Resort, Luminary Bakery, Salter Street Toys and Models, The Blackpool Tower, Scottish Power, Ryman Limited, Coop.

Details of this support can be found on the OCR website:
