QUALIFICATION TITLE - OCR Level 3 Cambridge Technical Certificate in Health and Social Care

QUALIFICATION NUMBER – 601/7059/1

OVERVIEW

The Level 3 Certificate in Health and Social Care has been developed for you if you are aged 16+ and want to develop and apply your skills, knowledge and understanding in health, social care and childcare.

This qualification isn’t just about caring for babies or the elderly and the ill; it will provide you with the skills, knowledge and understanding to progress into Higher Education on a health and social care-related programme such as Health and Social Care, Nursing, Social Work or Early Childhood Studies.

The qualification is designed to be taken as part of a study programme alongside other Vocational Qualifications or A-Levels, such as Cambridge Technicals in Science, A-Level Biology, A-Level Physics or Cambridge Technicals in Engineering.

You’ll take 3 mandatory units:

- Building positive relationships in health and social care
- Equality, diversity and rights in health and social care
- Health, safety and security in health and social care

These units will give you an understanding of health and social care within the wider contexts of different environments and settings where care takes place, the importance of effective communication in health and social care, the importance of legislation in health and social care and how to deliver a person-centred approach in the care you give. You will also develop skills such as communication skills as well as transferable skills such as research, planning and organisation.

IS THIS QUALIFICATION RIGHT FOR ME?

This qualification is part of a suite of Cambridge Technicals in Health and Social Care at Levels 2 and 3 with the Level 2 qualifications designed for learners who are 16 years old or over and aren’t yet ready to undertake a Level 3 study programme, but wish to study and/or be employed in the health and social care sector. It is recommended that when you start this qualification you will have achieved health and social care qualifications for example GCSEs in sciences at grade 4/grade C or above or level 2 vocational qualifications, e.g. OCR Level 2 Cambridge National in Health and Social Care. It is also recommended that you have grade 4/grade C or above in Maths and English GCSE.
There are five sizes of qualification available within the Level 3 Cambridge Technicals in Health and Social Care suite:

OCR Level 3 Cambridge Technical Certificate in Health and Social Care
OCR Level 3 Cambridge Technical Extended Certificate in Health and Social Care
OCR Level 3 Cambridge Technical Foundation Diploma in Health and Social Care
OCR Level 3 Cambridge Technical Diploma in Health and Social Care
OCR Level 3 Cambridge Technical Extended Diploma in Health and Social Care

The Certificate is an Applied General qualification and takes 180 guided learning hours to deliver which means it is equivalent to half an A Level. Taking the Certificate would give you an introduction to the health and social care sector and would support other vocational or academic qualifications with a view to progress to higher education or further study.

The Extended Certificate is an Applied General qualification and takes 360 guided learning hours to deliver which means it is equivalent to one A Level. Taking the Extended Certificate alongside other vocational or academic qualifications would allow you to study health and social care, or another related sector, in higher education or further study.

The Foundation Diploma in Health and Social Care is an Applied General qualification which is the same size as one and a half GCE A levels. It should fill approximately one half of your timetable. Taking the Foundation Diploma will provide you with essential underpinning knowledge and practical skills which compliment a study programme containing other health and social care related qualifications in a broad context which could be applied to other vocational sectors such as sport or science.

The Level 3 Diploma in Health and Social Care is an Applied General qualification which is the same size as two GCE A levels. It should fill approximately two thirds of your timetable. This allows for the study of other, supporting, Vocational Qualifications or A-Levels, such as A-Level Biology, A-Level Psychology or Cambridge Technicals in Engineering.

The Level 3 Extended Diploma in Health and Social Care is an Applied General qualification which is the same size as three GCE A Levels. It will form your complete two year study programme. The Extended Diploma provides a broad understanding and skill set related to Health and Social Care, and the academic skills required to support progression into higher education in a range of health and social care or related qualifications.

The Certificate qualification is the smallest in the suite so you would take this alongside your main subjects in your study programme. The units you take provide you with an understanding of the health and social care sector, including equality, diversity and rights and help build the transferable skills to prepare you to study in a Higher Education Institution, either on a health and social care-related degree course or to support an application for a range of other degree courses, as it would complement the other subjects you take in your study programme.
SUPPORT

The following Universities support this qualification:

University of Leeds, University of Wolverhampton, Arden University, Kingston University London and York College.

Details of this support can be found on the OCR website.
