

## Your teachers have to submit your grades by 18 June 2021

For Summer 2021 teachers will be making a judgement on your performance using a range of evidence from across the content you have been taught.

**For students taking GCSEs, AS and A Levels, Cambridge Nationals and Cambridge Technicals and other general qualifications, such as Entry Level, Core Maths and FSMQ.**

### TEACHERS

Teachers should:

**make a judgement** of your performance based on the grade you are working at using a range of evidence from throughout the course

**provide a grade** based only on the content that they have taught

mark assessments, portfolios and endorsements and non-exam assessment using the normal mark scheme

not limit the **overall grade** awarded if these include grades from examined components/units or internal assessment, particularly if they are impaired by coronavirus/other factors

continue teaching for as long as possible and determine your grades as **late in the academic year as possible**

make you aware of the evidence being used, but will not tell you the grade they are submitting

### RECOMMENDED EVIDENCE

When determining your grade, your teachers will use the following evidence:

Work on materials such as past papers, sample papers, tests or groups of questions

Non-exam assessment (also known as NEA, or simply coursework) work, even if this has not been fully completed

Class or homework

Internal tests taken

Mock exams

Records of progress and performance over the course of study

In performance-based subjects such as music, drama and PE, records of capability and performance over the course of study

For vocational qualifications – evidence from completed units including examined components that have been sat previously

### AWARDING ORGANISATIONS

OCR will provide you with access to support materials in every subject including past papers, previously unpublished questions, grade descriptors and candidate exemplars

### EVALUATING EVIDENCE

When evaluating evidence your teachers will consider:

- how the evidence was produced and measures taken to ensure it is your own work
- what you were asked to do
