

PSYCHOLOGY

It's easy to join us

Moving to OCR's A Level in Psychology from Pearson (Edexcel)

Are you currently teaching Pearson (Edexcel)'s A Level in Psychology?

This short guide will take a look at our refreshed A Level in Psychology and show you how it compares to the Pearson (Edexcel) A Level and how you can easily move to teaching our specification.

We **collaborate** with teachers, employers and Higher Education representatives to develop qualifications which are relevant and meet the needs of students.

We **listen**. The decisions we make when we develop our specification are based on teacher and student feedback. To tell us more about your experiences of teaching OCR, join our teacher panel and help shape the future of our assessments.

Our A Level in Psychology has lots of **key benefits** for teachers and students:

- a **manageable** amount of content
- a greater emphasis on **practical** investigation
- a **consistent** and **accessible approach** to assessment
- exciting and **relevant** psychological studies
- a **highly structured** approach across the specification and assessment model
- a **familiar** approach to the mathematical requirements
- compulsory sections on the engaging topics of **mental health** and **criminal psychology**
- **option** to study child, environmental or sport and exercise psychology.

Your students will develop:

- a lifelong passion for psychological issues
- a deep understanding of how psychology relates to the wider world
- the key skill of application and be encouraged to think like psychologists
- essential knowledge of the factors that influence human behaviour
- a deep understanding of relevant topics such as mental health and criminal psychology
- essential knowledge and understanding of different areas of psychology and how they relate to each other
- key skills needed to interpret and critically assess scientific data
- the ability to plan, conduct and analyse their own practical investigations
- competence and confidence in a variety of practical, mathematical and problem-solving skills.

About our A Level in Psychology

We believe in developing specifications that are engaging and contemporary, equipping students with the knowledge and skills they need to succeed in their studies and beyond.

Informed by research and extensive engagement with the teaching community, we've created specifications that aim to enthuse and inspire students of all backgrounds and abilities, helping you to help them achieve their full potential.

We offer a range of support services to help you at every stage, from preparation to delivery:

- expert **Subject Advisors** who are part of their subject communities and here to support you with advice, updates on resources, and information about training opportunities
- free detailed **assessment resources** including practice materials and examiners' reports to help you navigate the specification and its content
- free comprehensive curriculum planners and schemes of work to support with **planning**
- free teaching resources to use **in the classroom** with your students
- engaging **audio/visual clips** and programmes hosted by the Educational Recording Agency (ERA), that are mapped to the H569 specification
- **textbooks** and a range of teaching and learning **resources** from leading publishers and third parties. For details of all published and digital resources check the Teach Cambridge website
- **ExamBuilder**: our free question-building platform that helps you to build your own tests using OCR exam questions as our bank of past live-series grows
- **Active Results**: our free results analysis service to help you review the performance of individual students or whole school
- an extensive range of both live and on-demand **professional development** courses, covering everything from '**Starting to Teach**' and '**Exploring the Exam**', through to '**Enhancing your teaching**' and '**Exam Review**'.

To find out more about all of our support services, please visit [Teach Cambridge](#).
