

## Cambridge Technicals Level 2 raw mark grade boundaries January 2025 series

A grade boundary is the minimum mark you need to get a grade. For example, if the grade boundary for a Merit is 20 marks, you need to get at least 20 to achieve a Merit. A mark of 19 would therefore be a Pass.

To calculate your overall qualification grade, we convert each unit grade into points, which are added together to give a total points score. We then compare this total points score to the points grade boundaries to get your qualification grade. The points grade boundaries do not change and are available from the grade boundaries page of our website.

## Cambridge Technicals Level 3 raw mark grade boundaries January 2025 series

A grade boundary is the minimum mark you need to get a grade. For example, if the grade boundary for a Merit is 40 marks, you need to get at least 40 to achieve a Merit. A mark of 39 would therefore be a Pass.

To calculate your overall qualification grade, we convert each unit grade into points, which are added together to give a total points score. We then compare this total points score to the points grade boundaries to get your qualification grade. The points grade boundaries do not change and are available from the grade boundaries page of our website.
