

Vocabulary List

GCSE French

OCR GCSE in French: J730

OCR GCSE (Short Course) in French Spoken Language: J030

OCR GCSE (Short Course) in French Written Language: J130

This Vocabulary List is designed to accompany the OCR GCSE French specification for teaching from September 2009

FRENCH GCSE VOCABULARY LIST

This vocabulary list will be a valuable guide for teachers when planning their teaching and learning programmes and preparing candidates for the assessment. Please note that this list should not be seen as a self-study aid, as only brief meanings have been given and candidates may need help from their teacher/tutor to interpret some items correctly.

Foundation Tier: Assessment tasks for Foundation Tier Listening and Reading will be based on material in this vocabulary list. The assessments will contain some unfamiliar vocabulary but this will not be tested.

Higher Tier: Assessment tasks for Higher Tier Listening and Reading will be based on material in both the Foundation and Higher Tier lists. Assessments will contain some unfamiliar vocabulary, and some of this will be tested, since the national subject criteria require candidates to use a range of techniques to deduce meaning.

Speaking and Writing

In Controlled Assessment tasks, candidates may use vocabulary from the Foundation and Higher tier lists but can also use vocabulary that specifically suits the tasks they choose to do and their own personal interests.

Prior knowledge

It is expected that candidates will be already familiar with the following:

- Numbers – (ordinal and cardinal)
- Days of the week, months of the year and seasons
- Towns, countries and nationalities
- Feminine and plural forms of the words listed
- Prefixes and suffixes of words already listed
- Target-language words used in English
- English words used in the target language.
- Grammatical items and structures figuring in Appendix B in the Specification (e.g. conjunctions, prepositions, both simple and compound, reflexives, common adverbs and adverbial phrases, etc.)
- Straightforward and common cognates

Please note that some easily recognisable cognates may not be present in this list; however, others have been presented as a help to teachers and candidates. Cognates included in this list are those that are written similarly to their English counterparts, but pronounced in a markedly different way.

At Higher tier, candidates should know how to interpret suffixes as linguistic markers showing relationships between different parts of speech and have an awareness of the function of prefixes to modify the meaning of the root: e.g.
